9th September 2025

Dear School Community

Due to the additional measures placed on SEND School Transport there has been an increase in vehicles accessing the school site at any one time. This obviously increases the risk of accidental injury due to vehicles moving at the same time as pupils and staff. Therefore, from Monday 8th September 2025 the following measures will be put in place to keep everyone within our community safe.

The speed limit on site is **5 mph** and it is your responsibility to adhere to this. Anyone observed exceeding this will be reported to the commissioning Local Authority. We have installed additional traffic calming measures to keep our school community safe at all times.

You will also notice that we are having to continue to use King George Crescent during drop offs and collections. Please be considerate to our residents when parking your car.

All pupils are to remain within their vehicle until instructed to vacate by a member of staff. At no point should a pupil be dropped off and left without direct supervision.

Please see your specific collection point on the map provided. Those who are identified as single occupancy at the side of the school building will not be able to leave site until all pupils have accessed the site.

If you are late in collecting or dropping off a child you may be refused entry onto site until directed by a member of staff. This to maintain the safety of our school community.

Yours sincerely
