

Those in attendance – NCS, JML, SP, CCE, ACL, EMI, JWM, CWal

School council feedback Thursday 16th October

1, What have you learned about character education?

EL stated it allows you to focus on your weakest area to allow you to improve.

2, Have you noticed any change in how people behave or treat each other?

I may be less open as I am aware now that being too honest may offend a person so I may only share partial information (EMi)

3, Can you give an example of a time this term when you used one of the character strengths we've been learning about this term?

Helping someone to clean up.

4, Which character strength have you improved the most since September?

They found it hard to speak about this, but council meeting was soon after launch and did not have those ambassadors that are able to bring a discussion.

How can teachers and the school help you build character even more?

Again, unsure of this.

What could we do next term to make the programme even better?

Videos such as the feel-good Friday; pupils acting out the virtues (drama)

Help in assembly to allow me to show a virtue of giving back to the community – service (ACL)
